

Knotty Alder
Cutstock, Mouldings and Millwork

Fast, Flexible and Accurate...Just the way you want it.

CASCADE
WOOD PRODUCTS, INC.

Manufactured by Western Valley Cutstock, Inc.,
A Member of the Cascade Family of Companies

The team of craftsmen at Western Valley Cutstock specialize in precision manufacturing of a comprehensive selection of millwork products. Our factories are specifically geared to provide accurate millwork in the fastest possible production time with the greatest attention to detail. Our customers demand it and we meet their expectations every day.

Products:

Knotty Alder exterior doorframes, interior jambs, S4S boards and mouldings, door stops, mull posts, all made to our customer specs.

Flexible:

Extensive custom work in the areas of finger jointing and edge gluing with many price comparative options available in alder. Our plant is big enough to be able to do tough custom jobs, but small enough to work hand in hand with you on your project.

Grade:

All knotty alder from Western Valley Cutstock is grade specific to the product application. We cut only the best lumber.

On Time:

The production diversity in all of our plants allows Western Valley Cutstock to ship your products on time, every time.

Fast:

Our Quick-Ship stocking program for knotty alder products allows for shorter order lead times, without compromising consistency or quality.
